

HANDRAIL YWHL.40

LIGHT WOOD EFFECT

Life-blend® PVC Free

SMOOTH FINISH

Handrail with a smooth finish to guarantee perfect hygiene and cleanliness.

CONTINUOUS PROFILE

Various accessories available to offer a continuous and sturdy bar, in aluminium wrapped with Life-blend®, to ensure the highest sustain and security in your stairs and hallways.

DIP PRINT COLOR

The wooden effect finish is obtained with the DIP PRINT® technology.

BOTTOM CLOSURE

The horizontal handrail bar is free from the bottom closure profile to guarantee a secure handle and a better surface cleaning.

Combining “Dip Print” technology with a single die-cast aluminum support, the YWHL.40 wood effect handrail is the ideal solution for reproducing the warmth of wood with the advantages of modern materials.

Equipped with die-cast aluminum supports, it shares the same practical and robust characteristics as the HL series models.

It can also be installed on double-plate plasterboard wall.

Life-blend®

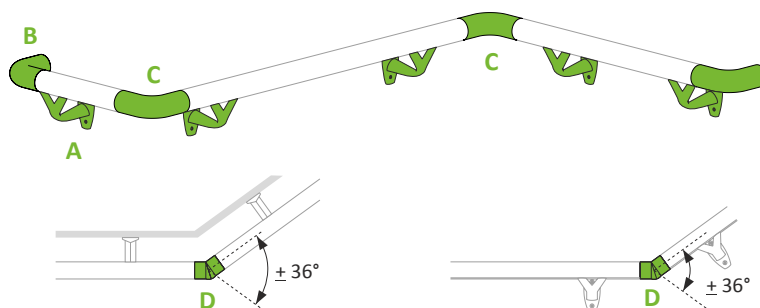

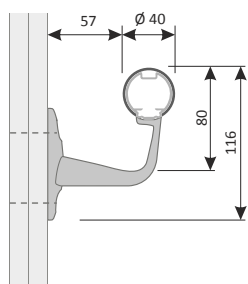

- Fire reaction B s1 d0
- Self-extinguishing
- PVC-free
- Non-toxic fumes
- Medical use
- VOC non-toxic certified
